24online Overview

24online has Designed a Multi-Tenant Solution which is deployed at the Centralized NOC of the Internet Service Providers. With Built in AAA and Access Gateway Functionalities, 24online Also Enables the features to Support Multiple Networks (Hotels, Hotspots, Universities, Airports etc.) on the same Platform.

There can be Multiple Users in Different Networks, but 24online is Smart Enough to Identify the Network, User & Usage details of the User and Accordingly Authenticate or Perform Accounting of the Users. With the Help of this Features, ISPs can Offer More than Just Bandwidth & On-board Existing Customer Base with New Offerings. It Opens a Completely New Segment for the ISPs to Tap and Generate More Revenue.

Key Benefits

Innovative Business Models

With the Solution Partnership with 24online, Service Provider can Offer Value Added Services to the Customer on Top of Vanilla Internet Facilities.

Increase Business Reach & Enhance Customer Experience

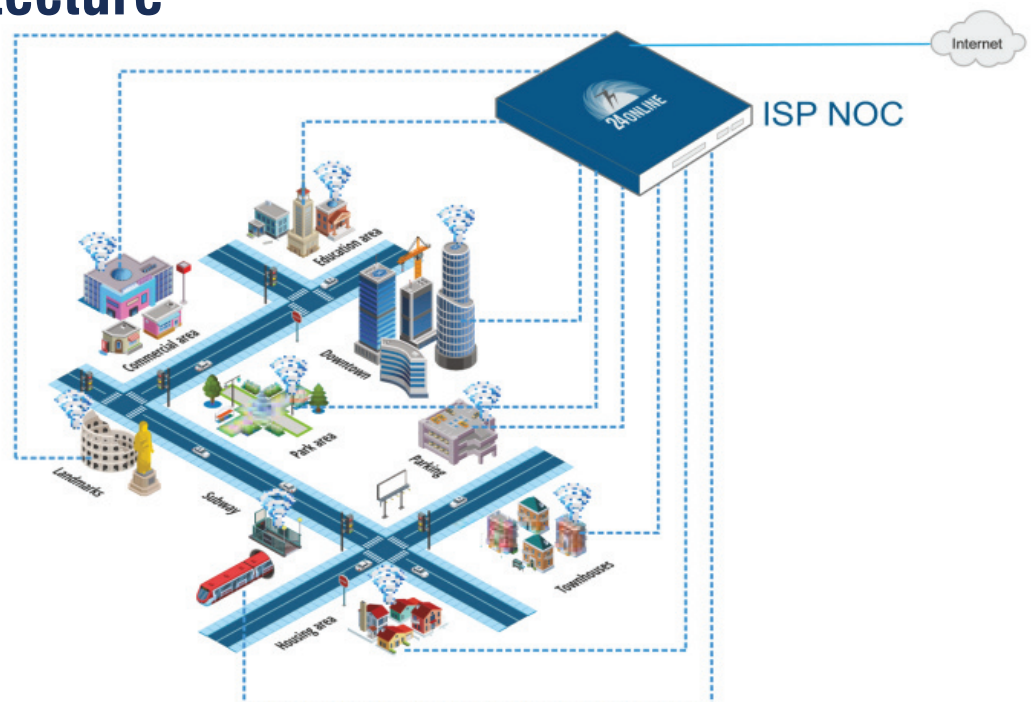

ISPs has Enhanced their Business Reach Among the Enterprise, Hospitality and Hot-spot Customers with the Unique Offerings. The Innovate Business Model Also Enhance the Experience of Property Owners as the Entire Management of the Services & Components Ensured by the Service Provider.

Network Competency & Quality of Service

Integrating with the Right Solutions & Products in the Market Like 24online, Service Provider Get the Best in Class Features, Functionality and Support Round the Clock. If there are any Customization or Additional Features Required for large Scale Deployment then the Open Architecture of the Solution is Capable of Supporting it.

Additional Revenue Generation Platform

Network Architecture

Features

● Upto 100k + Concurrency in RADIUS & Upto 10GBPS Throughput in NAS

Access Management

Inbuilt RADIUS server

- 802.16d & 802.16e Compatible
- PAP/CHAP/EAP-TTLS Support
- Offers Inbuilt Database
- Supports Oracle Database

Authentication

- Login Through Web Based PPPOE, Leased Line(Auto Login)
- AD / LDAP Authentication
- Voucher(Coupon) Based Authentication
- Corporate Based Authentication
- Device Based on Username & Password
- Mac Based Auto Login
- Interoperability
- Social Media Based Login
- SMS OTP Based Login

Authorization

- Based on MAC and IP address
- Re-Authorization Functionality

Accounting

- On Hours, Days, Data Transfer

Bandwidth Management

- Tiered Bandwidth Management
- Committed and Burstable Bandwidth
- Individual and Shared Bandwidth Quota
- Bandwidth Scheduling & Fair Usage Policy
- Priority Based Bandwidth & Connection Ratio
- Bandwidth Capping Using Firewall Rules

Subscriber Management

- Complete User Life Cycle Management
- Account ID Based User Credentials
- Create | Activate | Suspend | Renew | Archive Users
- User Management Based Reports
- User My Account
- User Account Wallet

Package Management

- Prepaid & Postpaid Packages
- Create Hourly and Day Based Plans
- Registration & Renewal & Topup Packages
- Advance Renewal System (ARS)
- Auto Renewal System
- Advance Postpaid, Anniversary Billing, Advance Postpaid Including Anniversary Billing.

Internet Billing

- Data Billing
- Currency Converter Facility
- Peak & Off-peak Billing
- Pulse Based Rating
- Pre-paid & Post-paid Billing
- Customizable Multi-service Invoice Template
- Tax, Ancillary and Discount Facility
- Allow Billing Grace Periods
- Change Overwriting on Postpaid Billing
- Discount Facility on Both Package Level & User Level

Franchise Management

- Create Multiple Franchises in Network
- Create Single or Multiple Franchise Operators
- Franchise Based: Package | Vouchers | Invoice | MIS Reports
- Franchise Based Payment Tracking

Coupon Management*

- Branding & Customizable Coupon Templates
- Create Packaging Zone wise Coupons

Captive Portal Capabilities

- Create Customizable Login Pages - HTTP Enabled
- Device Based Login Pages - Mobile/Laptop
- BYOD Support
- User Self Registration
- Promotions and Branding Options
- Video AD Scheduling**
- SSL Based Secured Captive portal
- SSID(DHCP Option 82) Based Captive Portal
- QR based authentication
- Centralized captive portal
- Time-based captive portal

Multiple Gateway Load Balancing*

- Supports Multiple ISP Links
- Weight Based Round Robin Traffic Balancing
- High Connectivity Even During Peak Hours
- Immediate Auto-Failover Detection
- Intelligently Redirect Traffic to Active Gateways

System Management

- IP Pool Management
- Login Once
- Syslog Configuration
- DHCP, DNS & PPoE Client & Server
- SmartNAT*
- SNAT Management*
- Diagnostic Tools
- Console & Secured Access (SSH)
- Demographic Field Option
- Basic Firewall System
- Swift User Migration Facility
- Data Backup and Restore
- Factory Reset
- Network Management Options
- Network Packet Capture Option for Admin
- Deployment Modes - Access Gateway | AAA | Standalone

Administration

- Role Based Multiple Level Administration
- Console & Admin GUI (ACL)
- Change Password Options
- Multi-functionality Dashboard Facility
- Ease of Admin Interface
- Quick Configuration Options

Reporting

- Admin GUI Usage Log - Audit Reports*
- NetKapture* | Weblogger*
- Reports in CSV/Printable/Graphical/PDF
- MIS & BI Reports
- Realtime Pin Reports
- HTTP/HTTPS Usag Log
- Diagnostic and System Health Check Tools

Third Party Integrations*

- CRM Integrations
- Ticketing System Integration
- API Based Integration
- Syslog Integration

Payment Gateway*

- Integrated with Major Secured Payment Gateways
- Facilities Online Payment Receivables Flexible to Integrate with Any Payment Gateway
- Integrated with 24online Payment Tracking

Video Ad on Captive portal

- Video-Ad Scheduling for HTTP Traffic while Browsing
- Video-Ad at the Time of Login/Logout
- All Video type File Supported

Attractive & User Friendly Admin Interface

- Rich Look & Feel of Admin GUI
- Multi-lingual GUI Option
- Frequently Used Options
- Demographic Field Option
- Comprehensive Dashboard Format
- Easy Control & Configuration Options

High Availability*

- Offers High Availability Active-Passive Mode
- Detect Failure & Redirect Traffic to Secondary Server
- Avoids Data Loss and Downtime

Alert Management

Email Based Alerts

- Event Based Customizable Email Templates
- Schedule Alerts for Renewal/Package Expiry
- Alert Users on Bandwidth Switch Over
- Dunning(Configuration DynamicTemplate & Forward Various Level of Alert messages over Mail)

SMS Based Alerts*

- Click-n-configure SMS Gateway
- Integrated with 20+ SMS Gateways
- Manage, Try and Create Facility
- Facilitates Different Message Templates
- Send Message at Different Events-Check-in and Check-out
- Offers complete Log of SMS Sent
- SMPP Support
- WhatsApp notification

Pop-up Window for Live Users

- Alert Users In-case of Login/Logout/package Expiry Date
- Pop-up Live Message for Network or Technical Problems

Web Filtering**

- Web Categories : Default (37+)
- Block Domains and Ports
- Protocols Supported: HTTP, HTTPS
